

**Butterfly  
Narcissus Mix**

Split Cup Daffodils are also known as Butterfly Daffodils and are unique among themselves. Their broad, flat, split cups are said to resemble graceful butterflies in flight. These are thrillingly beautiful flowers, and this mix is an affordable way to add a nice collection of these lovelies to your garden. Bulb size: 14-16 cm. Late April. 14-16”.

**\$1 each, 5/\$3.50, 10/\$6.50, 20/\$12.50**

**Narcissus “King Alfred”  
Jumbo/DN1**

Registered in 1899, this classic is the most popular of all large, yellow daffodils. You won’t believe the size of the bulbs and the blooms! Early Mid-Spring Bulb size: DNI:18 cm. April. 18" to 20".

**\$1.25 each, 5/\$5.50, 10/\$9.75,  
20/\$19**

Bulbs for Fall Planting***

## About this year's selections....

Again, we have been sensitive to the times by providing some affordable and yet excellent options for beauty in your garden, but this year, we have assembled some very special flowers that you cannot find just anywhere.

### Spectacular Tulips...

This year, our tulips are spectacularly large and vibrant. We have selected sturdy varieties that should hold up against the heavy spring showers in our area. For best performance and the longest lasting display, we

recommend partly shady locations that have some shelter against the elements. For example, if you have a rock wall in your garden, plant a cluster in front of the wall, and the contrast between muted stone and vibrant flower will delight you.

**We are now featuring "show bench quality narcissi"....**

"Narcissus" is a fancy word for what most of us simply call "daffodils". This time for our sale, we selected some extremely high quality varieties that produce high quality blooms that perform better than most in competition. If you are looking for something very special, look here. If you are a collector, if you like to enter your flowers in shows, or if you just want something unusual and very, very pretty, you can find what you want here. Quantities are limited, so please come early for best selection!

*LOOK OUT FOR SOME EXTRA GOODIES FROM OUR GARDENS AT THE SALE. WE WILL HAVE SOME NICE SURPRISES FOR YOU.*

## About our hyacinths...

Our hyacinths bulbs are much larger than most bulbs you will find in stores or in most catalogs. They are forcing & exhibition grade. If you are planning to force Hyacinths for indoor blooms, you should pot up the bulbs in mid-October and pre-chill them between 38 and 45 degrees for 10 to 12 weeks (with regular watering). Or, you may place them in hyacinth glasses (with water) and pre chill them for 10 to 12 weeks so that they may develop a good root system prior to blooming. After pre-chilling, they should bloom in nice sunlight in about 4 weeks!

### Hyacinthus orientalis "Jan Bos"

Circa 1910, this bright, red award-winner is the best, early red forcer. Bulb size: 16/17 cm. April. 8" to 12".

**\$2 each, 5/\$7, 10/\$12, 20/\$22**

### Hyacinthus orientalis "Carnegie"

Circa 1863, this beautiful, white hyacinth is a great forcer. A perfect addition to heirloom gardens. Bulb size: 16/17 cm. April. 8" to 12".

**\$2 each, 5/\$7, 10/\$12, 20/\$22**

### Hyacinthus orientalis "Pink Pearl"

A 1922 introduction, this award-winner is fuchsia-pink with paler edges and is the best, early pink forcer. Bulb size: 16/17 cm. April. 8" -12".

**\$2 each, 5/\$7, 10/\$12,  
20/\$22**

### Hyacinthus orientalis "Sky Jacket"

This wisteria-blue hyacinth has a darker midrib on each floret with pale yellow anthers. Bulb size: 16/17 cm. April. 8" to 12".

**\$2 each, 5/\$7, 10/\$12,  
20/\$22**

### Hyacinthus orientalis "Blue Jacket"

This terrific award-winner has large, dark blue flowers with purple stripes and is a good, mid-early forcer. Bulb size: 16/17 cm. April. 8" to 12".

**\$2 each, 5/\$7, 10/\$12,  
20/\$22**

### Hyacinthus orientalis "City of Haarlem"

Circa 1893, this long-time award-winner has soft primrose-yellow flowers. The best of all yellows! Bulb size: 16/17 cm. April. 8" to 12".

**\$2 each, 5/\$7, 10/\$12,  
20/\$22**

### Narcissus "Thalia"

We have carried this bulb since our first sale, and we have it once more because we love it so much. Thalia bloom later than most of the rest of the narcissi and therefore extend the season. They multiply rapidly, smell great and have multiple blooms per stem. What is not to like? When the garden club members were asked if we should feature Thalia again, the answer was clear. Yes! We want you to buy many and strew them across your yard. Therefore, we bought

a lot of them and priced them to move! Mid Spring, Bulb size 12/14,

**50 cents each, 5/\$2.50, 10/\$4, 20/\$7**

### Narcissus odorus fiore pleno (plenus)

'The Queen Anne's double jonquil' The variable double form of odorus Linneaus (Camperelli) a very fragrant and reliable perennializer sometimes resembling a yellow rose and other times only the cup is doubled. Bulb size: 10+ cm/up. April.
